

What to Expect

The afternoon combines:

1. Thought-provoking keynote presentations on the future of AI and regenerative innovation.
2. High-level discussions on the current state of AI, Europe's strategic opportunities and responsible innovation.
3. Showcases of innovative AI initiatives in areas such as digital sovereignty, interconnected Europe, corporate innovation and university spin-offs.
4. Curated executive roundtable discussions bringing together leaders from government, industry, investment and academia.
5. Opportunities to initiate new collaborations, pilot projects and long-term innovation partnerships.

The forum concludes by exploring how promising ideas and collaborations can continue beyond World AI Week through structured innovation, venture-building and investment.

Who Should Attend

The forum is designed for senior decision-makers, including:

1. Policymakers and government representatives
2. Corporate executives and innovation leaders
3. Investors, venture capital firms and family offices
4. Entrepreneurs and AI founders
5. Universities and research institutions
6. Innovation ecosystem leaders

Attendance

To ensure meaningful dialogue and a high-quality peer group, attendance is strictly limited and subject to an application and selection process. All registrations will be carefully reviewed to ensure a balanced representation across policy, industry, investment, academia and entrepreneurship.

Hosted By

The Regenerative AI Innovation Forum is jointly hosted by **Regenerative Labs**, **Xablu Venture Studio** and **VNTR**.

Together, the hosts bring complementary strengths in thought leadership, venture building and investment, creating a unique platform where ideas, innovation and capital come together to accelerate meaningful AI initiatives.

Venue to be confirmed soon.
